

Cultivate A Career In Horticulture

Diploma of Horticulture (Turf)
RTF 50803

This course is ideal for people working with turf areas such as sporting facilities and large recreation areas. If managing the physical, financial and human resources is what you do or would like to do this qualification is for you.

Students who enrol in this course must be employed in a Horticultural workplace. You could complete the full Diploma of Horticulture within two (2) years. Depending on you and your employers needs, learning may be held at your workplace, at a TSI campus in Clarence, Alanvale or Burnie, or at an agreed destination.

Course Results and Skills Gained: The course has been designed to give student options for course content. These options include, but are not limited to budgets and financial planning, staff management, planning and designing in areas of irrigation, drainage and playing surface construction. For those interested in the business aspects of turf management, business and marketing subjects are also available.

Course Includes: A total of 10 units of competency must be completed. See below for a common selection of units.
