

# Certificate IV in Plumbing and Services CPC40911

## Licensing Units Supported Study Sessions

**License Training Assistance – get your license quicker with face-to-face, individual help.**

The Skills Institute Plumbing Unit is running a series of supported study days for plumbers working on their Certificate IV Licensing units. During each of these sessions a teacher will be available to guide, provide feedback and assist students with their individual licensing training.

The units listed in the table below will be covered on these study days. You only need to be enrolled in the specific units you wish to be licensed for. If you are already enrolled in units, you are still invited to participate in these sessions. Practical units including ‘...Backflow Prevention Devices’, ‘...Hot Water Temperature Control Devices’ and Type A gas appliance servicing, will still be delivered as stand-alone courses.

Unit Code	Unit Title	Units required for licensing
CPCBC4012A	Read and interpret plans and specifications	<b>All</b>
CPCPCM4001A	Carry out work based risk control processes	
CPCPCM4002A	Estimate and cost work
