

TIMI

Workplace Safety Induction

www.timi.com.au

The Industry & Mining Induction (TIMI)

- ❖ TIMI is a flexible, low cost, online workplace safety induction program based on a generic core, with online assessments and learning resources.
- ❖ Assessments are supervised by approved Assessment Supervisors who are available at various locations around the state.
- ❖ Alternatively, if you are an employer, Assessment Supervisors can be approved for your workplace in order to supervise your employees at a time that is suitable for you and your staff.
- ❖ Participants will learn occupational health and safety practices/procedures applicable to all areas of work, including surface work, underground, production and processing areas.
- ❖ In order to ensure awareness of current Work Health and Safety requirements, and to maintain induction currency, participants must re-sit the TIMI Induction every 2 years.

Inductions Include:

- Generic Core & General Induction
- Generic Underground Induction
- Site Specific General Inductions
- Site Specific Underground Inductions

Topics Covered Include:

- Legislative Requirements
- Colour Coding & Signage
- Tagging & Isolation
- Managing Hazards
- Personal Protective Equipment
- Traffic & Mobile Equipment
- Emergency Procedures
- Health & Hygiene

Participants Receive: TIMI Report outlining all assessments successfully completed
TIMI Workplace Safety Induction Card

Prerequisites: Proof of identification i.e. Drivers' Licence

Duration: Time required will depend on industry experience and computer skills
Average time for Generic section (approx. 2 - 2.5hrs)
